

# ECHELON

## THE WORLD'S MOST ACCURATE CANNABIS PACKAGING SYSTEM POWERED BY SYNAPSE

Echelon is the most accurate cannabis weighing system on the market today, with astounding 10x greater accuracy than its closest competitor. Unlike traditional combination weighing systems, Echelon's modular design boasts a small footprint and can perform over 30 million weighing combinations within a fraction of a second. Echelon can accurately weigh both cannabis flower, virtually any THC-infused gummie or edible and is powered by proprietary artificial intelligence technology that enables it to 'learn' cannabis flower and edibles in real-time.

### SYSTEM SPECIFICATIONS

- Compatible with both cannabis flower, gummies and other edibles
- Scale resolution: 0.0005g
- 10x more accurate than closest competitor
- Over 30,000,000 weighing combinations
- Industry-leading disassembly and cleaning
- Small footprint (can fit through a standard doorway)
- Modular design
- Powered by AI technology
- Remote access ready
- 22" touchscreen interface
- Wireless mobile device interface
- Speed: 10 - 25 cycles/min
- Power: 110v, 15amp
